

LAWYERLAWYER BUSINESS SYSTEM

The firm has a team of professionals specialized in enforcement. For the purposes of the activity, specialized software was created and implemented.

Way of working of the system

- ✓ The creditor provides in electronic form data about the debtor - TIN, names, addresses, telephones, etc., and about the claim - principal, interest, expenses, etc.
- ✓ The provided data is imported into the Office's IS, noting the origin - bank loan, contract, etc., and the provided paper documents are scanned.
- ✓ An electronic file is created for each claim (case).

Description of the system

The system has four modules considering the procedural phase of specific cases. The program connects and tracks all phases of production. Enables processing, storage and analysis of information.

✓ **Module 1.**

Warrant proceedings under Art. 410 of the Civil Code - Allows the generation of an unlimited number of applications for the issuance of an execution order, based on the submitted and processed information, as per Art. 410 of the Civil Code, as well as under Art. 417 of the Civil Code.

✓ **Module 2.**

Warrant proceedings under Art. 417 of the Civil Code.

✓ **Module 3.**

Claim proceedings.

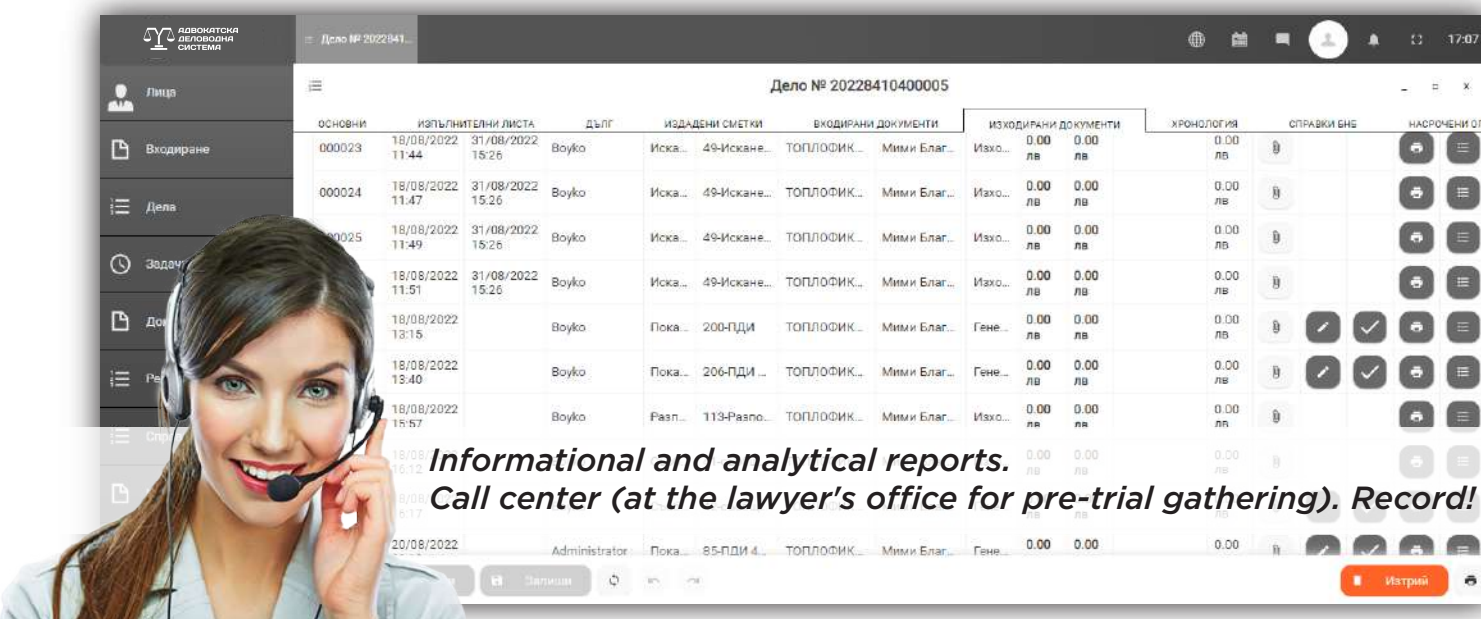

The system tracks deadlines during the claim proceedings - scheduled meetings, deadlines for responses to court orders, etc.

The system enables tracking and connection between the various proceedings - warrant, claim and execution. Ability to calculate the amount of liabilities.

✓ **Module 4.**

Executive proceedings.

Ability to integrate various information systems for data exchange and easy tracking of enforcement cases.

The screenshot displays the 'Лично' (Personal) interface of the Lawyer Business System. It features a sidebar with navigation icons for 'Входване' (Login), 'Дела' (Cases), 'Задан' (Assigned), 'Документи' (Documents), 'Резултати' (Results), 'Справка' (Help), and 'Настройки' (Settings). The main area shows a table of cases for 'Дело № 20228410400005'. The table has columns for 'ОСНОВНИ' (Basic), 'ИЗПЪЛНИТЕЛНИ ЛИСТА' (Execution List), 'ДЪЛГ' (Debt), 'ИЗДАВАНИ СМЕТКИ' (Issued Invoices), 'ВХОДИРАНИ ДОКУМЕНТИ' (Entered Documents), 'ИЗХОДИРАНИ ДОКУМЕНТИ' (Issued Documents), 'ХРОНОЛОГИЯ' (Chronology), 'СПРАВКИ БНЕ' (BNE Reports), and 'НАСРОЧЕНИ ОП' (Scheduled Operations). The table lists several cases with dates, names, and amounts. A call center agent is visible in the foreground, smiling and wearing a headset.

Informational and analytical reports.
Call center (at the lawyer's office for pre-trial gathering). Record!

Access from any point and device

The system is built on a web-based platform. This means that it can be accessed through the Internet from a PC (stationary computer), laptop, as well as through a mobile application from a tablet or smartphone.

The pluses added in the working process

-  Easy submission and creation of documents in the system.
-  Avoiding human errors
-  Fast document processing
-  Standardized forms - Applications for the issuance of an execution order
-  Notifications for upcoming events
-  Two-way communication between the Employer and the office.
-  Assignment of tasks by the Contracting Authority to employees of the Office.
-  Real-time inquiries and reporting from anywhere.
